

THE BOARD

My approach

- ❖ To the informed enthusiast as much as to the novice wishing to approach art for the first time: For anyone looking to have fun, to treat themselves to a beautiful work of art, to fit out a new interior and who finds themselves a little lost in front of an extensive offer.
- ❖ To any investor looking for sure values or emerging artists who follow a logic profitability.
- ❖ To any company that wishes to enhance its image with its customers and its collaborators.

Whatever your motivation, I put all my listening and my experience at your service in order to best understand your artistic sensibilities and your expectations.

I base this on your budgetary constraints, the study of your interior space, your tastes to offer you works, artists, artistic trends that will best suit your personality and will give you pleasure and pride.

We establish a bond of exchange and trust and we move forward together.

The trigger and essential element must remain the emotion and the encounter with the work itself.
