

RESEARCH AND SUPPORT

Buying contemporary art is not easy, the offer is so impressive and the environment responds to specific codes. My meticulous and passionate knowledge of artists and their work allows me to guide you and assist you as best as possible towards a choice that suits you.

I advise artists who have solid references, a place in the art market, a real creative dynamic and authenticated works with perfect and proven traceability.

In addition, I work closely with them, thanks to a network built over the years.

Completely independent, I favor trust, dialogue and high standards.

With a view to purchasing, I am happy to accompany and guide you on visits to galleries, international fairs and artist workshops.

PURCHASE

I offer you a price that I will have negotiated at best and I follow all the administrative procedures relating to the sale. The same goes for logistics, transport ... You don't have to worry about a thing. I can also bring together specialists to offer you installation, lighting or framing services.
