

FAVORITE ARTISTS

I want to give greater visibility to “favorite artists” who particularly touch me, highlight them and be an intermediary for them.

A simple and open approach.

This selection of favorite artists is important because it reflects a meeting that is both human and artistic.

It is not, however, exhaustive.

I work in a completely independent and free manner, so I can offer you a choice of artists and works (originals, serigraphs, litographies, etc.) demanding and very varied, perfectly in line with the diversity of contemporary creation.
